ITS Standards Field Support Team

Introducing . . .

the Federal Highway Administration ITS Standards Field Support Team

“Pioneers” and “Leaders” involved in the development and use of ITS Standards have made significant strides over the past several years. This is amplified by the increasing use of the National Transportation Communications for ITS Protocol (NTCIP). In an interest to complement the USDOT Peer-to-Peer Program, the Federal Highway Administration has established an ITS Standards Field Support Team (SFST). This Team is composed of FHWA and Private Sector Specialists who are prepared to provide short-term, on-call assistance in the area of ITS Standards. The goal of the Team is to support and facilitate the deployment of Intelligent Transportation Systems that advance National and Local Needs while implementing ITS Standards. Some examples of the services provide are listed below:

- **Assessment of current system**
- **Guidance and assistance in the development of project specifications**
- **Review existing contracts and specifications and provide relevant assistance**
- **Assist in the identification of appropriate contracting and procurement mechanisms**
- **Assist in the development of testing plans**
- **Evaluation of systems for compliance to contracts and conformance to specifications**

**To request support from
The ITS Standards
FIELD SUPPORT TEAM
Please Contact Your
FHWA Division Office
- Or -
Any Team Member Below:**

**EMILIANO LOPEZ
(410) 962-0116**

emiliano.lopez@fhwa.dot.gov
(Eastern Resource Center)

**PAUL OLSON
(415) 744-2659**

paul.olson@fhwa.dot.gov
(Western Resource Center)

**JOHN TOLLE
(708) 283-3541**

john.tolle@fhwa.dot.gov
(Midwest Resource Center)

**GRANT ZAMMIT
(404) 562-3575**

grant.zammit@fhwa.dot.gov
(Southern Resource Center)

**TOM STOUT
(202) 366-6054**

tom.stout@fhwa.dot.gov
(Deployment Task Force)

When you contact a Team member, we will ask a few questions regarding the nature of your request. We will then work to deliver the necessary support required.
